

# JUKI TSC-441U

**1-NEEDLE, LONG CYLINDER BED, LOCKSTITCH MACHINE  
WITH A LARGE SHUTTLE-HOOK FOR EXTRA-HEAVY-WEIGHT MATERIALS**

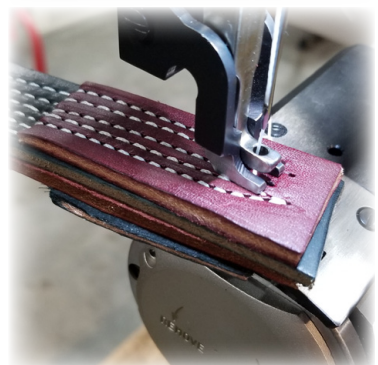

*The original heavy-duty walking foot, top & bottom feed sewing machine. Strong and efficient for the production all kinds of leather goods, bio-plastics, harness, webbing, and more.*

Large shuttle hook

- **HIGHER LIFT OF THE PRESSER FOOT:** The lifting range of the presser foot is as high as 20 mm for smooth placement/removal of extra-heavy-weight materials.
- **REDUCED BOBBIN REPLACEMENT:** The machine comes with a large shuttle-hook, which helps to reduce the frequency of bobbin thread replacement. Best suited for the sewing extra heavy-weight materials sewn with lower-count threads.
- **BUILT-IN BOBBIN WINDER:** The bobbin winder is built into the front portion of the machine arm for easy access.
- **SPACE UNDER THE ARM:** Free space under the machine arm allows the operator to easily place and remove a large sewing products. In addition, the machine has outstanding capabilities in the sewing of sharp curves.
